EXPERIENCE

Freelancer | Editing

Anantapur | 2022 - Present

As a freelancer, I managed and executed end-to-end video and design projects for a diverse range of clients, specializing in engaging content for personal events (weddings, festivals) and promotional needs.

SKILLS

Programming Languages: HTML, C, Java, CSS, AI Automation & Agents, Artificial Intelligence, Machine Learning, Python
Libraries/Frameworks: JavaScript
Tools / Platforms: Git, VS code, N8N, Replit, Firebase
Databases: SQL, MongoDB

PROJECTS / OPEN-SOURCE

FreelanceFinder-Discovering-Opportunities-Unlocking-Potential | [Link](#)

JavaScript, CSS, HTML

FreelanceFinder is a full-stack web application that connects clients with freelancers to collaborate on projects seamlessly.

Fake-News-Detection | [Link](#)

Python, HTML, CSS, JavaScript

This project is an NLP application for classifying news headlines as REAL or FAKE.

ScriptEmotion-prediction | [Link](#)

HTML, CSS, Python, Procline

This project is an end-to-end NLP application that predicts the genre of a movie based on its description or script snippet

Facial-Expression-Detection | [Link](#)

Python

This project detects yawning and smiling in real-time using your webcam. It uses dlib for facial landmarks and OpenCV for image processing and Haar cascades.
